Professional Summary

Backend Web Developer with experience in designing and maintaining robust server-side applications. Skilled in building scalable APIs, managing databases, and optimizing backend performance for smooth frontend integration. Strong focus on security, reliability, and clean code architecture.

Professional Experience

Backend Developer, PrinceCapital 12/2024 – Present
Chennai

As a Backend Developer at PrinceCapital, I contributed to designing and developing backend systems supporting the company’s financial services platform. My work focused on building robust APIs, managing databases, and ensuring high performance and security.

- Developed and maintained backend functionality using Django and Django REST Framework.
- Designed and optimized PostgreSQL databases for performance and scalability.
- Built and integrated RESTful APIs for seamless frontend communication.
- Collaborated closely with frontend developers to ensure smooth data exchange and user experiences.
- Focused on performance optimization, secure coding practices, and clean architecture.

Technologies: Python, Django, Django REST Framework, PostgreSQL, Git, Postman, VS Code

Frontend Developer Intern, Seval Software Pvt. Ltd. 06/2023 – 07/2023
Chennai

- Created responsive HTML and CSS layouts for company websites.
- Improved usability and visual consistency across pages.
